

## INDRA GROUP SIGNS A TECHNOLOGICAL COLLABORATION AGREEMENT WITH BWT ALPINE FORMULA ONE TEAM

- The alliance will facilitate the integration of IndraMind's sovereign artificial intelligence platform into one of the sporting world's most demanding technological environments

**Madrid, January 23, 2026.** – Indra Group, the leading Spanish multinational devoted to technology and defence, announces an exciting new partnership with French-owned Formula One team, BWT Alpine Formula One Team to strengthen the commitment of the two organizations to technological innovation, advanced intelligence and operational excellence within the framework of the FIA Formula One World Championship.

The agreement envisages the incorporation of IndraMind, Indra Group's sovereign artificial intelligence platform, into the team's operating ecosystem, leading to its deployment and validation in Formula One, one of the world's most complex and demanding technological environments, particularly entering a new regulation era for the 2026 season. The integration will facilitate real-time analysis and correlation of the huge volumes of data generated every race weekend, thereby optimizing strategic decision-making and anticipating critical scenarios in a sport in which every millisecond counts.

With its modular and interoperable architecture capable of functioning in any cloud or edge environment, IndraMind will bring advanced predictive capabilities, operational efficiency, and cognitive superiority to the competition.

Ángel Escribano, the Executive Chairman of Indra Group, declared: "Formula One constitutes the ultimate expression of competitiveness, innovation, and technological precision. The agreement with BWT Alpine Formula One Team enables us to partner an elite sporting project and demonstrate the value of our capabilities in real high-demand environments".

Indra Group CEO José Vicente de los Mozos remarked: "At Indra Group we seek to actively contribute to the development of the technologies that are shaping the future, furthering the company's global reach and bolstering our innovative vocation. This collaboration will show us how merging the technological, industrial, and sports sectors can multiply the impact of initiatives such as the Grands Prix that are strategic for our country and project *Brand Spain* on the international stage".

Flavio Briatore, Executive Advisor, BWT Alpine Formula One Team, said: "We are delighted to welcome Indra Group as an official partner of BWT Alpine Formula One Team. Indra Group's commitment to technological excellence, innovation, and advanced intelligence aligns perfectly with our ambitions as a race team. Our partnership will see the implementation of IndraMind and the integration of their intelligence platform into our engineering ecosystems. It will contribute to better optimizing our racing operations and will enable us to develop innovative technological advances at a time when Formula One is entering a new technological era."

The partnership will enable Indra Group to showcase its technology developed in Spain to a global audience, demonstrating its applicability to highly complex operations and its capacity to generate real competitive benefits.

Indra Group will thereby boost its international standing in the areas of advanced intelligence, integral protection, and strategic technologies capable of operating in the world's most sophisticated environments.

### About BWT Alpine Formula One Team

BWT Alpine Formula One Team competes in the FIA Formula One World Championship with Grand Prix winner Pierre Gasly and rising star Franco Colapinto. The two drivers, under the leadership of Executive Advisor Flavio Briatore and Managing Director Steve Nielsen, are driving forward the team's charge in a new era of Formula One as the sport embraces the revolutionary regulations introduced from 2026 season. The team operates out of its Enstone factory in Oxfordshire, United Kingdom, where it has been based since 1992, in its previous guises as Benetton Formula, Renault F1 Team and Lotus F1 Team. Enstone has a winning legacy with seven Formula One World Championships including the Drivers' World Championship [1994, 1995, 2005 and 2006] with Michael Schumacher and Fernando Alonso, and the Constructors' World Championship [1995, 2005 and 2006]. The team's 2026 car, the A526, is designed and built on-site with the 1000-strong

workforce working hard towards the new opportunities presented in the 24-race season. For more information, please head to [www.alpinef1.com](http://www.alpinef1.com).

#### About IndraMind

IndraMind is Indra Group's technological initiative that develops sovereign artificial intelligence within a cyber-resilient environment to provide comprehensive protection for citizens, territories, and critical infrastructures across both physical and digital domains. Designed as the group's "digital brain," it delivers cognitive superiority through advanced artificial intelligence capabilities that enable combat hybrid warfare, threat anticipation and optimize decision-making with a comprehensive perspective on security and defense.

#### About Indra Group

Indra Group (<https://www.indragroup.com/>) is the foremost Spanish multinational and one of the leading European companies that focus on defence and advanced digitalization. It stands at the forefront of the defence, space, air traffic management, mobility, and transformative technologies through Minsait, and it integrates its sovereign AI, cybersecurity and cyberdefence capabilities into IndraMind. Indra Group is paving the way to a more secure and better-connected future through innovative solutions, trusted relationships and the very best talent. Sustainability is an integral part of its strategy and culture in order to overcome current and future social and environmental challenges. At the close of the 2024 financial year, Indra Group posted revenues of €4.843 billion and had a local presence in 46 countries and business operations in over 140 countries.
